Dear Bruce:

Please accept the enclosed award as a token of EG&G's recognition of the exceptional representative you have been for the company. I have been gratified with your outstanding performance and contributions.

You have done a remarkable job under very trying circumstances, keeping a professional and diplomatic approach and maintaining high productivity. I was especially impressed with your awards in value engineering—a discipline that takes discipline and one that the SSCL sorely needs.

It has been a pleasure to have been your associate these past few years at the Superconducting Super Collider Laboratory. I look forward to continuing to work together in the coming years.

Sincerely,

E. Jack Story
President
